# iO SHOTGUN Rabbit Bait

Independents Own

Highly effective for the control of feral rabbits whilst posing lower risk to non targets. Active: 0.5g/kg Pindone Sodium Salt.

## Recommendations

As well as using iO Shotgun as your bait when combating the rabbit population, also remember to destroy warrens and burrows around your property. Make it harder for those rabbits to survive that don't touch the bait.

Rabbits are territorial. Adventurous rabbits generally feed further from the warren; shy rabbits feed closer to the warren. Rabbits may not find (and therefore not eat) bait placed outside their feeding areas.
